EL AMRANI CHAKIR

For having ranked Number #1
in the edition of February, 2022 of the

PHP Innovation Award

for the PHP package

PHP AJAX Response Router

Nomination reason: PSR-7 is a PHP standard recommendation for creating PHP classes that can encapsulate the details of an HTTP request and an HTTP response. This package implements the PSR-7 recommendation to simplify the processing of HTTP requests of AJAX and other types of PHP Web applications. Application developers only need to specify callback functions or class methods ready to process PSR-7 compliant requests and response objects to implement their PHP
